

Year 3 Stone Age History Project

Friday 12th September 2025

Dear Year 3 Children, Parents and Carers,

As part of our Stone Age topic this term, we will be hosting our own Y3 museum exhibition. Your homework is to create your own exhibit for this event.

Your project can take on any form, so long as it is linked to the Stone Age. It is your chance to get creative! Why not create...

- A model
- A poem
- A piece of artwork
- A structure
- A sculpture
- A diary entry
- An investigation
- A newspaper report
- A fact file

The possibilities are endless!

You will have around seven weeks to complete this project at home.

How should I start?

1. Research ideas for your exhibit.
2. Make your exhibit.
3. Create a museum card showing the title of your exhibit.
4. Create an information card for your exhibit-this should include a very brief description of what it is and could also include some key facts/information from your research. This should be no longer than a paragraph.

Please bring your projects into school on Monday 3rd November ready for your class museum afternoon that week.

Exhibition dates:

Chestnut- Wednesday 5th November 2:30pm

Ash-Thursday 6th November 2:30pm

Beech-Friday 7th November 2:30pm

All parents/carers are welcome to join us. You are welcome to take your child home straight from the afternoon event.

If you have any questions, please feel free to come and chat to us.

We look forward to seeing your wonderful creations.

Year 3 Team
